### From The Chairman's Desk

"Success comes to those who work hard and stays with those who don't rest on the laurels of the past." It is very much apparent that we live today in a world that is so very different from the one we grew up in, the one we were educated in. Change in today's world is riding an accelerated pace and we need to pause and reflect it on the entire education system. I firmly believe that students must be taught how to think, not what to think. That reminds me of the great words of wisdom by Aristotle, "Educating the mind without educating the heart is no education at all". As we impart education to match the advancement of technology and globalization, we march our children ahead with the ethos of moral and ethical principles. We fortunately have committed and supportive management, dedicated teachers, caring and cooperative parents, which blend harmoniously to create a child centric school which I am sure will enable our pupils to think, create and unfold the magic of ecstatic imaginations.

Shri Prashant Kulkarni  
Chairman,  
Governing Council, KLSPS

### From The Principal's Desk

Each issue of our News Bulletin is a milestone that marks our growth, unfolds our imaginations and gives life to our thoughts and aspirations. It unleashes a wide spectrum of creative skills ranging from writing to editing and even in designing the magazine. Teamwork is the hallmark of KLSPS. I am very sure through collaborative effort, we can achieve more to benefit our students who are the future leaders of tomorrow. I would like to end with the words of Albert Einstein - "Imagination is more important than knowledge, for while knowledge defines all that we currently know and understand, imagination points to all we might yet discover and create."

With sincere and warm regards,

Mrs. Shalini Sankranti  
Principal

### The unsolved mystery-THE BERMUDA TRIANGLE

The Bermuda triangle also known as the Devil's Triangle, is an urban legend and the biggest mystery in the world focused on a loosely defined region in the western part of the North Atlantic Ocean where a number of aircrafts and ships are said to have disappeared under mysterious circumstances. The idea of the area as uniquely prone to disappearances arose in the mid-20 century.

The earliest suggestion of unusual disappearances in the Bermuda area appeared in a 17 September 1950 article published in Miami Herald by Edward Van Winkle Jones. Triangle writers have used a number of

supernatural concepts to explain the events. Some hypothesize that a parallel universe exists in the Bermuda Triangle region, causing a time/space wrap that sucks the objects around it into a parallel universe. There are other theses regarding this mystery, but none of them are proved correct and **STILL THE BERMUDA TRIANGLE REMAINS AS THE BIGGEST MYSTERY OF THE WORLD...!!!!**

### **My Magical Garden**

Once upon a time, there lived a wizard in the magical city of the "Wizard's town". His name was Harry. Harry had a magical garden. There he had red cabbage, pink apple, purple pineapple plants and many more magical trees. The plants grew without water and if they watered them, the plants died. One day, Harry came to see his garden, his plants had died! He was sure that someone had watered the plants as he saw a bucket. He was sad. He asked his neighbours if anyone came to see his garden. The first neighbour said that "no, I did not see anyone". The second said that "yes, I've seen someone in your garden". The third person also said the same. Harry was a wise man. So, he thought and thought. He knew that the first person had done all this. He reached the first neighbour's house, then told him what he had done. The person said sorry to Harry and he also helped Harry to grow new plants. After this incident, they both became best friends.

### **My story**

One day, I woke up and found myself in 'dino-world'!!! I heard a loud roar. Rrrrrrrrrr!!!! It was a tarbosaurus. I ran as fast as I could. I hid behind a big rock. I suddenly slipped and went through a tunnel. "Wow!! What an amazing view!!" I cried. It was a big area. There was a rainbow, waterfall, mountains and many kinds of dinosaurs. But when I started walking, I heard a strange voice. I looked behind, it was a boy who was hurt by somebody. I asked him "What happened? What's your name". He said "I am Madhav, I was going through a thick forest, thud!! A trynosaurus came after me." The wind started blowing so fast that every small plant started falling down. We saw a cave and rushed fast. Huh!! Then I remembered that I have a tent in my bag. I had matches to make a fire. Soon it was raining. I took out 2 raincoats and nets for both of us. Then we were out for hunting and got some eggs. We boiled them and had them. Then we rested in our tent. Early morning, we searched for a lake to brush our teeth and to bathe. We changed our clothes and left. On the way back home, we heard the same roar again...Rrrrrrr!!! Madhav ran away. Trynosaurus was about to gobble me, I escaped from there.

Ahhh!!! Thank God, it was just a dream!!

### The Unsung fighter-FATHER

As the name of 'Unsung Fighter' appears in front of us, we think of freedom fighters. But there is a fighter in everyone's house that's none other than 'the father'. We always talk about the sacrifices and caring nature of our mothers. But acknowledging a father's contributions is important too. A father always struggles and works hard for the family. He works hard to give us every facility. He teaches the children to live respectfully and love his family. We should respect and value our fathers. Thank you for everything Papa...

### Deep Thoughts

If you have time, delve into your thoughts.  
Delve into memories where you were happy,  
satisfy yourself with the feeling of pride on your face.  
Delve into the memories where you had no friends, It's Ok!  
Be a companion of yourself.  
Delve into the times where you had difficulties, It's Ok!  
Nothing is permanent.  
Delve into the thoughts where there was a smile on someone's face  
because of you. It's Nice.  
Spread happiness.  
Delve into the thought where you might have thought 'Why me?'  
It's because you have the capacity to withstand things.  
Delve into the thought of critics. It's Ok!  
Because you know who you are.  
Make yourself strong and fearless, success is half way there.

### ಸಂದಿಕೆ

ಸಂದಿಕೆ ಓದುವವಕ್ಕೆ ಮೂರು ಅಕ್ಷರಗಳೇ ಇರಬಹುದು  
ಆದರೆ ಅದನ್ನು ಸಾಧಿಸುವುದು ಬಹು ಕಷ್ಟ  
ವಿಕೇಂದರೆ ಅದು ಹಣಕಾಸು ದುಬಾರಿ  
ಯಾರನ್ನು ನಂಬುವುದು ಯಾರನ್ನು ದೂರುವುದು  
ಎಲ್ಲರೂ ಇಲ್ಲಿಮುಖವಾದ ಧರ್ಮ ಸೂತ್ರವು  
ನಾಟಕಗಾರರೇ ಆಗಿರುವಾಗ.....  
ಒಬ್ಬರ ಮನ ನೋವಿನಲು ನಿಮಿಷ ಸಾಕು  
ಆದರೆ, ಆ ನೋವು ಮನವನ್ನು ಸುಖದಿವಲು  
ಪರುಷಗಳೇ ದೇಹಿ.  
ನಿನ್ನಲ್ಲಿರುವ ಭಯಕ್ಕಿಂತ ಸಂದಿಕೆ ನೋಡುವಾಗಲಿ.  
ಅತಿಯಾದರೆ ಅದುವು ವಿಷವಾಗಬಹುದು

### Interesting facts of A.I.

- The term Artificial Intelligence was coined in 1955 by John McCarthy, Nathaniel Rochester and Claude Shannon.
- A.I. is already being used in many areas of our lives including healthcare, transport, finance and customer service.
- NASA has been using A.I. in space exploration for various tasks. For instance, in the Mars Curiosity Rover uses A.I. algorithms to analyze data and make decisions autonomously on the Martian surface.
- The US military is a major investor in A.I. research.
- A.I. is the core of self-driving cars. These vehicles use sensors and A.I. algorithms to navigate roads, avoid obstacles and makes decisions based on real time data.
- A.I. is expected to have a major impact on the work force, with some experts predicting that up to 40% of jobs could be automated by 2030.
- A.I. still in early stages of development, but it has the potential to revolutionize many aspects of our lives.
- The future of A.I. is uncertain, but it is clear that it is a technology with the potential to change the world.

## Self Discovery

**Self-discovery** is the process of gaining a deeper understanding of oneself, including one's values, beliefs, emotions, motivations, strengths, weaknesses, and life purpose. It involves introspection, self-reflection, and exploring different aspects of your personality and identity. The journey of self-discovery can be transformative and empowering, leading to personal growth, increased self-awareness, and a better sense of direction in life. Here are some steps you can take to embark on your self-discovery journey.

**1. Self-reflection:** Take time to reflect on your thoughts, feelings, and experiences. Consider writing in a journal or engaging in mindfulness practices to become more aware of your inner thoughts and emotions.

**2. Identify your values and beliefs:** Examine what truly matters to you and what you believe in. Understanding your core values and beliefs can help guide your decisions and actions in life.

**3. Seek feedback from others:** Talk to friends, family, or mentors about how they perceive you. This feedback can provide valuable insights into your strengths and areas for improvement.

**4. Be open to change:** Be willing to let go of limiting beliefs or habits that no longer serve you. Embrace change as a natural part of the self-discovery process.

**5. Practice self-compassion:** Be kind to yourself throughout this process. Self-discovery can bring up challenging emotions, but remember that it's all part of the growth and learning experience.

**6. Embrace uncertainty:** Self-discovery is an ongoing journey that may not have a clear endpoint. Embrace the uncertainty and enjoy the process of continuous learning and self-improvement. Remember that self-discovery is a unique and personal journey, and there is no right or wrong way to go about it. Take your time, be patient with yourself, and embrace the beautiful and thrilling adventure of discovering who **YOU** truly are.

Virat Patil Class 6<sup>th</sup>

## PARENTS REVIEW

1) KLSPS offers well-organized and structured curriculum, excellent teaching with perfect blend of conventional and modern teaching methods like project-based learning, co-operative learning etc. School organizes many events, competitions periodically and gives ample opportunities to the students to participate and showcase their talents. Combined efforts of teachers and co-staff has created motherly hood atmosphere in the school. My son and daughter are extremely happy about the school and actively participate in all the events. I think my decision of selecting KLSPS since their kindergarten proven to be the best decision. Thank you KLSPS family...

**Mr. Avinash Deshpande**, Parent of Shrinidhi and Aditi Deshpande Class-5<sup>th</sup> and 2<sup>nd</sup>.

2) "A memorable place- KLS Public school" KLSPS is a place where a stone turns into a sculpture. An excellent environment for overall personality development of a child. It works with the concept 'simple living with high thinking'. The school encourages for academics, sports, cultural and other co-curricular activities. I feel very glad and lucky that the kids are encouraged towards success. A big thanks to the hardworking staff for the amazing job that you do.

**Prof. Gangadhar Hunagund**, Parent of Anusha Hunagund (Class-10<sup>th</sup>)

3) I have no words to express my gratitude towards KLSPS. The day we took admission in this school, both my daughters were like closed locks and this school is responsible for opening them. Both my daughters have excelled in academics as well as extracurricular activities like public speaking, event management, music etc. all of these have instilled a new vigor and confidence to face any challenge in life. I wholeheartedly thank the Principal Shalini ma'am and the entire staff.

**Dr. Shailesh Patil**, Parent of Vaibhavi and Vedika Patil Class-10<sup>th</sup> and 9<sup>th</sup>.

4) I am extremely pleased with the education and environment that KLSPS provides for my son. The staff are dedicated, caring and attentive to the needs of each student. My son's academic progress has been remarkable and I appreciate the school's emphasis on both intellectual growth and character development. The communication between the school and the parent is excellent, keeping us informed about events, activities and his overall performance. The extra-curricular options offered have allowed my son to explore his interests and develop new skills. I'm confident that KLSPS is nurturing his love for learning and helping him grow into a well-rounded individual.

**Prof. Shafiqahmed Yellur**, Parent of Md. Arham Yellur (Class-3<sup>rd</sup>)

5) The school is first step for kids to learn from another parent called teacher. Teachers provide knowledge and moral education to kids for overall development. All these requirements as a parent of my child Pruthvi Bogar are fulfilled by KLSPS. We are very happy with overall curriculum, outdoor and indoor activities. We are able to see the growth of our child.

**Mr. Rohan S Bogar**, Parent of Pruthvi Bogar (Class-LKG)

6) All teaching and non-teaching staff of KLSPS are very friendly and teach very well. The principal is very encouraging and supportive. Teachers encourage students to perform to their best at academics, sports and arts etc. Annual functions, festivals and celebrations are organized beautifully. They have the best choice for students' field trips and picnics. This is the best school.

**Mrs. Neha Deshpande**, Parent of Dhruva Deshpande (Class-7<sup>th</sup>)
