MY DEAR DAD

He is my Super hero,
He is my guiding light.
I have not seen tears before,
But a bold confidence as the
back bone of my life.

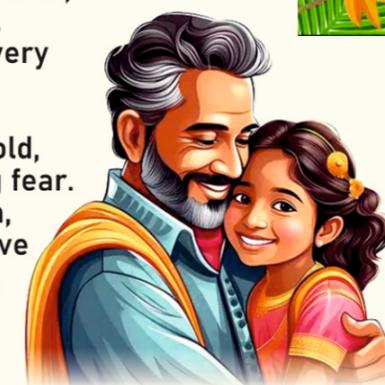

The life is turning out with his support,
But no space for misunderstanding.
He loves me very much,
But doesn't have words to express.

In childhood days he was hero bold,
A story teller, with tales to be told.
He taught me courage, to stand up tall,
And face the world, beyond the wall.

Now olden grown, his lessons which,
Carried a moral for my life.
His values enriched upon my very
Face now.

A father's love, a treasure I hold,
Dispelling doubt, and concurring fear.
His wisdom shapes my path,
His kindness true, father's love
Forever I peruse in my life.

Trees sway, flowers
Bloom, without a sound
The sun shines bright,
The birds sing sweet,
A gentle breeze rustle
Through the trees leaves neat.

The river flows, a soothing sight,
Reflecting the sky's blue light.
The mountains stand, a majestic view,
A testament to nature's wonder true

In nature's arms, we find our peace,
A sense of calm, our worries release
So, let's cherish and
Preserve this sight
For nature's beauty is a pure delight.

IT'S ME, AN UMBRELLA!

Namaste, I am an umbrella! Summer, winter and Autumn passed, finally, it's monsoon; my season! Now my owner Asmita will carry me to school every day until the monsoon ends. When I reached the school, Asmita kept me to dry near my other umbrella friends, one named Rahul and another named Ashwini. Ashwini said, "nice to meet you all after a long time." I also said the same. "I was hung always at the backside of the door for many months. I was so bored," said Rahul. I said, "no one ever looked at me. No body bothered to know in which condition I am". We talked and had lots of fun. Suddenly bell rang. The children started screaming and Asmita came and took me. My friends also said bye-bye to me and then they went with their owners. Then I and Asmita too went home.

Friendship can't be broken,

which brings the shade in the month of sunny may.

Friendship never cuts off,
Friendship always strengthens up,
Friendship is a medicine,
Which can be a great vaccine.

Friend could be a brother,
Friend could be a father,
Friend could be your challenger,
Can make your future brighter.

Friend is your gift from god,
Friend is your ever ready sword,
Friend can be lost,
If not taken care unto the last.

GENIE- MY WISH GRANTER

If I ever met a genie, I would ask him to grant me my three wishes. My first wish would be getting flying powers so I can explore the entire solar system and all the beautiful places on earth with a high speed. My second wish would be to be able to communicate with animals so I can run around with them and help them. My third wish would be to get a pet dragon that can breathe fire out of its mouth so it can cook my food in place of gas stoves and it can also protect me and my house from thieves. And if I have a chance to get one more wish I would ask for many more wishes...hahaha!!!

MY EXPERIENCE @ CBSE SOUTH ZONE CHESS TOURNAMENT

Taking part in the CBSE South Zone Chess Tournament at Davangere was a joyful and memorable journey. In the beginning, I felt a little nervous, but with every game my confidence slowly grew. Preparation for the tournament was started well in advance under the guidance of our chess coach. In the days leading up to the tournament, they took classes each morning and helped us improve by analyzing our games after every round. Their support and encouragement gave me the strength to play with focus.

Last year we had learnt many lessons from the losses, and this time those lessons helped us to perform well and play with more confidence. This journey became even more special because of my teammates and our sports in-charge ma'am, who kept us motivated and made the trip enjoyable. I was also blessed with the support of my family members, our Principal ma'am, teachers, classmates, and friends. Their prayers, blessings, and encouragement gave me confidence throughout.

Along with their support, my own self-confidence and determination helped me give my best. Winning the medal was the happiest moment for me. From nervousness at the start to pride and joy at the end, this experience will always remain close to my heart. A big thank you to everyone who supported me in this journey.

Class 4th Jhansi Rani Laxmi Bai

MY BEST FRIEND,

Hello, I am Sarthak from grade 3rd. My best friend is Sathvik. Our journey started in grade UKG when we were 6 years old and we became best friends for a long life. My life has improved in many ways by having a best friend like him. We created countless cherished memories together, from studying for exams to enjoying fun outings. He always inspires me to be a better person. Our friendship is the foundation of deep trust and mutual respect, allowing us to share our thoughts and dreams openly. I feel grateful for my best friend, and I hope we remain friends forever.

PARENT REVIEW

Mrs. Gouthankim
Parent of B. Ngaingaihan- Class 3rd

My daughter has been attending KLS Public School for about 3 years and she absolutely loves it. She wakes up excited to go every day, a testament to the nurturing environment. The extracurricular activities are well-balanced, fostering confidence and character beyond our expectations. Every staff member, from the gatekeeper to the Principal, is caring and understanding, creating a supportive community. We're incredibly grateful to KLS Public School, its teachers, and staff. I firmly believe there's no better school for my daughter in Karnataka or beyond. Thank you!

Mr. Nikhil Dambal Parent of
Dhriti-Class -UKG

I have my daughter studying at KLS Public School, and I can say it has been one of my best decisions. In today's times, where most schools lack open spaces, this school offers a sprawling campus with plenty of opportunities for students to explore outdoor activities. The staff and management are highly disciplined, whether it is in academics or in ensuring the overall well-being of every student.

I was pleasantly surprised by the way festivals are celebrated here, not just as events, but as opportunities to help children understand the deeper ethos of our culture. The school also organizes visits and activities outside the campus, encouraging children to look beyond the traditional classroom routine, there are internal activities where students learn practical life skills like negotiation and sales, which add great value beyond textbooks. Workshops on mental health and holistic growth further reflect the school's commitment to nurturing balanced individuals.

A big thanks to the Principal Madam and the entire staff. They are not only excellent at what they do but are also approachable, caring, and united in their intention to nurture the overall growth of every student.

Mr. Harish Patil
Parent of Virat- Class 8th

As a parent, I am very thankful and pleased by the teachers and coordinators as I can see and feel a constant growth and positive attitude of my son. He enjoys going to school and is very excited to take part in curriculum activities, sports as well as annual gatherings. School has an appropriate balance between academics and co-curricular activities. Teachers are excellent at nurturing the children's academic skills and create a very homely and positive atmosphere for the students. I highly recommend the school for those who are in search of a good school. I'm totally satisfied with the support given to him by the teaching and non-teaching staff- the best of all that I have seen so far.

Mrs. Shaheen Noor Hussain Ladkhan
Parent of Abdur Rahman- Class 10th

KLS Public School has been providing excellent education under the CBSE curriculum, and I feel truly fortunate that my son Abdur Rahman has been a part of this institution from Grade 1 to Grade 10. Over the years, I have witnessed his steady growth, not only in academics but also in confidence, discipline, and values that will guide him throughout life.

The school maintains a perfect balance between academic excellence and holistic development. The quality of teaching is outstanding—teachers are approachable, dedicated, and ensure that every child receives personal attention. Regular assessments, innovative teaching methods, and integration of modern learning tools have strengthened my son's foundation in all subjects.

Beyond academics, KLS Public School encourages participation in sports, cultural activities, and co-curricular events, which has given my son opportunities to explore his talents and develop leadership skills. The emphasis on values, teamwork, and discipline has also shaped him into a more responsible and confident individual.

I sincerely thank the Principal, teachers and the entire school management for their commitment, guidance, and tireless efforts in creating such a nurturing and disciplined environment. As a parent, I am proud to be associated with KLS Public School, which has truly become a second home for my child and laid a strong foundation for his future success.

The school maintains a positive and vibrant learning environment. It is impressive to see the focus on both academic excellence and extracurricular activities. The staff and students share a strong bond of respect and enthusiasm, which reflects in the overall culture of the institution."

Dr. Vivek Kulkarni
Parent of Varuni Class-9

After my daughter joined KLS Public School, I noticed a positive change in her confidence and enthusiasm. The school provides a warm and welcoming environment for children. Teachers are very supportive, approachable, and dedicated to every student's growth. My daughter, Varuni Vivek Kulkarni studying in 9th std., developed good study habits and discipline. The teaching methods are modern, engaging and easy for children to grasp. The school encourages not only academics but also extracurricular activities. Many students excel in sports, cultural events and other competitions as well. KLS Public School emphasizes values, respect and responsibility in daily learning. Regular feedback and parent-teacher meetings keep us well informed. The campus is safe, student-friendly and well maintained. Joining KLS Public School has truly been a rewarding experience for both my daughter and us as parents.
